

**SOURCING QUALIFIED TALENT JUST GOT EASIER**  
 OUR EXPERT VETERAN HIRING ADVISORS DO THE WORK TO HELP YOU  
 FIND THE CANDIDATES YOU NEED.

RecruitMilitary's **VetExpress Automated Talent Delivery System** makes it easy to source qualified veteran talent for your organization.

*No need to login to a Job Board to search for candidates.*

*No need to understand military occupations and how they relate to the jobs you're trying to fill.*

RecruitMilitary VetExpress delivers a pool of qualified candidates directly to your email inbox.

**Here's how it works:**

- ▶ It starts with a phone call with your RecruitMilitary Veteran Hiring Advisor to discuss the skillsets and other characteristics required for the position you're trying to fill.
- ▶ Using a deep knowledge of Military Occupational Specialties (MOS) and advanced search techniques, your Advisor will search our database to identify a pool of qualified candidates.
- ▶ You will receive an email with links to the profiles/resumes of candidates that meet your hiring criteria.
- ▶ As new candidates that meet your hiring criteria register on the RecruitMilitary job board, you will be notified – giving you “first crack” at engaging with fresh candidates entering the job market.

**It's that easy.**
